The ADU and/or JADU with new vehicular access to streets or alleys is subject to design review.

25.17.060 Utility Connections and Fees. All ADUs and JADUs shall connect to public utilities, including but not limited to water, electric, and sewer services.

In order to obtain the incentive, the property owner must limit by deed restriction, covenant, and/or other instrument the occupancy of the ADU, based on the income limits and applicable rental rates established annually by the state of California. The city may impose conditions and

penalties for noncompliance with the affordability restrictions. Deed Restriction. If the owner has requested the incentives in this section, prior to the issuance of a building permit, the property owner shall record a deed restriction with the County Recorder's Office, the form and content of which is satisfactory to the City Attorney. The deed restriction document shall notify future owners of the owner occupancy requirements, prohibition restrictions on short-term rentals, and annual reporting requirements. The deed restriction shall remain in effect for a minimum of 10 years.

(B) Incentives. All city building, planning, zoning, and impact fees shall be refunded after building permit final, excluding consultant review fees.

No public notice or hearing shall be required unless the ADU and/or JADU do not meet the standards of this chapter or requires a discretionary permit, including but not limited to a Coastal Development Permit. The noticing and appeal requirements shall follow the requirements of the discretionary permit.

25.17.110 Code Enforcement Amnesty.

Delay in Enforcement. The City, until January 1, 2030, shall include in a notice to correct a violation of any provision of any building standard relating to an ADU or a JADU a statement that the owner of the unit has a right to request a delay in enforcement pursuant to the following:

- (A) The ADU or JADU was built before January 1, 2020.
- (B) The ADU was built on or after January 1, 2020, at the time the ADU was built, had a noncompliant ADU ordinance, but the ordinance is compliant at the time the request is made.
- (C) The owner of such an ADU that receives a notice to correct violations or abate nuisances must apply to the City requesting that enforcement of the violation be delayed for five years on the basis that correcting the violation is not necessary to protect health and safety. Examples of violations that require correction include, but are not limited to, gas line connections, electrical wiring of improper size and terminations, no venting for mechanical equipment, no natural light and ventilation, and structural stability.
- (D) The Director shall grant the delay in enforcement if the Director determines that correcting the violation is not necessary to protect health and safety, including but not limited to building standards and fire and safety standards.
